

CELF AIR CHAMPIONS – SOCIAL CHANGE SCIENTISTS COMMITMENT AGREEMENT

As a prerequisite to be a CELF Air Champion – Social Change Scientist (CELF ACSCS), I agree to the following:

- I will always treat everyone with kindness and respect, even those who do not understand Science.
 - I understand that I am a Social Change Scientist collecting powerful data, and that data is just noise until it meets context and is visualized in a meaningful way that our brains can consume.
 - I acknowledge that everyone will internalize how Air Quality impacts our Health, our Community, and our Futures at different speeds along this journey.
 - I will be open to other's interpretation of what the data might be saying. We are still figuring this all out.
 - I acknowledge that everyone may not care as much about Air Quality and its impact as I do. That is OK. CELF Air Champions can care enough for everyone.
 - I will commit to teaching through a lens of Sustainability, helping guide our next generation of Social Change Agents toward a Healthier, more Equitable and Resilient Future.
-

I will download free "Air Quality by Plume Labs" app

- Apple iTunes: <https://itunes.apple.com/us/app/plume-air-report-beat-pollution/id950289243>
 - Google Play: <https://play.google.com/store/apps/details?id=com.plumelabs.air>
1. Set up the city you want daily data on,
 2. Select your pollution sensitivity,
 3. Select your main activity,
 4. Select all notifications (Smart, Morning Report & Evening Report), and
 5. Each morning review the 48 hour Air Quality Forecast for your Home and City.
-

I will follow the Open group "Air Champions" Social Media

<https://www.facebook.com/Air-Champions-101023334788710>

1. Start collecting data and sharing your adventures.
2. Take your Flow on an adventure.
3. Take some photos along the way to add context to your pollution measurements.
4. Take a few screenshots of you Flow app at interesting moments
5. Post your photos to the Air Champions group with any questions or comments you might have.

Tag @AirChampions and @ChildrensEnvironmentalLiteracyFoundation and use the #AirChampions tag @CELFeducation on Twitter
